* For the reconstructed series, but not for the series in the original classifications ill-defined and unknown causes of death (ICD10 codes R00-94, R96-R99) were redistributed among the other causes of death. A detailed description of the redistribution methods used is provided in the country specific "Background and Documentation" files. The total number of death counts which have been redistributed is given for each country in the individual "Ill-defined death counts" files.
