Japan Statistics Bureau. Annual October 1st population estimates for years 1996-2012. Reference Table Two.
Comments
(Population estimates) Years 2000, 2005 and 2010 are census counts for single-ages 0-100+ (2000) and 0-115 (2005 and 2010), with population of unknown age already redistributed. Intercensal years are official estimates for single-ages 0-90+. Data were collected and sent as a spreadsheet by Futoshi Ishii of the National Institute of Population and Social Security Research.
Date 7-March-2014
Reference Person
Tim Riffe (triffe@demog.berkeley.edu)

Comments
(Population estimates). This spreadsheet contains quinquennial censuses of the de facto population for January 1st, 1884 (5-year age-groups), December 31st for years 1888, 1903, 1908, 1913, 1918 (single ages 0-100+) and October 1st 1920, 1925, 1930, 1935 and 1940. These data are currently under consideration for possible future use, but are currently excluded from the series.
